EDUCATION-BASED ACTIVITY PROGRAMS

The National Federation of State High School Associations and the Oklahoma Secondary School Activities Association recognize the numerous potential benefits of participation by students in education-based activities. While education-based activities may differ between the stakeholder groups, all should be centered on optimizing the student's scholastic activity experience. Students will change, develop and expand abilities over time; coaches, administrators and parents should not only be cognizant of the fluid process, but also foster a safe, positive environment in which development can occur. Education-based activities must always be viewed as an evolving and unpredictable path.

The NFHS and the OSSAA recognize the influential role played by coaches and directors in all activities, and therefore emphasis should be placed on those individuals to instill and reinforce fundamentals and best practices, not only to minimize risk but also to promote an environment in which a student has the opportunity to reach his or her full potential. The common goal for all the stakeholders involved with education-based activities should be to make the experience enjoyable and rewarding for the all.

While our position is not intended to squelch dreams of achieving a college scholarship or professional or Olympic glory, we do place emphasis on the student's entire scholastic activity experience with the goals of enhancing participation, reducing injury risk, and optimizing performance and success (however defined) during the student's high school career. The ultimate goal; Producing an individual who is competent, confident, connected to his or her peer group and community, and of high character. This essential principle is at the core of the scholastic activity experience and is fundamental to the mission of the OSSAA and NFHS.

DIVERSITY, EQUITY AND INCLUSION (DEI)

Promoting education and the understanding of groups that have social and cultural differences is an integral part of education-based activities. Every student participating in activities at an OSSAA member school is entitled to participate in a safe school environment that is free from bias. Any form of bias (including demeaning comments, racial, ethnic, or homophobic slurs) based on social or cultural differences will not be tolerated in education-based activities.

A. EDUCATIONAL OPPORTUNITIES

All OSSAA member schools, shall provide opportunities for educating and promoting the understanding of social and cultural differences on an annual basis. Opportunities can include intentional dialogue between groups and/or individuals, group and/or individual on-line courses, speakers and conferences.

The OSSAA Staff and Board of Directors will make resources available to member schools for the purpose of promoting diversity, equity and inclusion education.

1. The OSSAA Staff and Board of Directors will participate in diversity, equity and inclusion training annually.
2. Each school year, each activity is required to engage the respective participants in diversity, equity and inclusion training.

B. OSSAA BOARD SUB-COMMITTEE

A sub-committee (DEI Committee) of the Board of Directors, will engage annually with school administration, students and coaches/directors for the purpose of reviewing the DEI Policy and to explore educational opportunities available to create a better understanding of social and cultural differences.

C. OFFICIALS

All contest officials shall be required to view the *Implicit Bias* course annually. The course is available at NFHSLearn.com. Other educational resources will also be made available including intentional dialogue, speakers, workshops and conferences.

D. PUBLIC ADDRESS ANNOUNCERS AND BROADCAST CREWS

Any person or persons making public address announcements at a regular season or post season contest; and any person associated in any manner with a broadcast crew, including but not limited to regular season or post season contests being streamed, televised or broadcast over the radio must provide in writing they have completed an educational opportunity in the form of on-line classes, speaker led workshops or conferences prior to being a part of any OSSAA activity.

ENSURING GOOD SPORTSMANSHIP AT OSSAA MEMBER SCHOOLS REQUIRES THE RESPONSIBILITIES OF DIFFERENT GROUPS BE COORDINATED AND CARRIED OUT AT EACH CONTEST INVOLVING SECONDARY LEVEL STUDENTS.

1. **School Administration:** The responsibility for fan behavior resides with the participating school administrations from each participating school (combined with the host site security in neutral site contests). School administration must provide adequate supervision at the venue. Negative behavior targeting participants or officials must not be tolerated. Removal of

non-compliant fans shall be managed by the administrative team. A report detailing the circumstances must be sent to the OSSAA anytime a fan is removed from a contest.

2. **Coaches:** Head coaches must communicate expectations for fan/parent, and player behavior. Communications should include consequences for unruly fan/parent or player behavior and be shared with each player and the player's parent/guardian.
3. **Officials:** Officials shall, upon arrival at the contest, meet with on-site administration to ensure lines of communication are open and officials know where to find school administration should a problem arise outside the playing area. Under no circumstances should an official directly remove a person outside the playing area from the venue. The administrative team or designee will be responsible for removal of any fan.
4. **Participants:** Participants experiencing inappropriate behavior from other participants and/or non-participants during the contest must communicate those issues directly to their coaching staff to ensure identifiable issues are addressed by the administrative teams

A student's current scholastic eligibility status would not change if an OSSAA play-off contest was delayed into the next week due to inclement weather or other extreme circumstance.

- D. Sub-varsity only athletes in track and field: Athletes that have sub-varsity only eligibility status (these are athletes that are *ineligible* for varsity competition due to a residency issue) may not participate in events designated to be varsity events. In track and field, sub-varsity only athletes may not compete in heats or flights that are varsity designated against varsity eligible athletes. The head coach and meet managers shall ensure that sub-varsity only athletes are not placed in heats or flights designated as varsity competition. (Violations for sub-varsity only athletes competing in varsity events could involve sanctions that disqualify all athletes from the school in the heat/flight and meet sit-out for the coach. Meet managers risk forfeiting approved sanctioning in future meets from OSSAA.)

Additionally, personnel not holding a valid Oklahoma teaching certificate must meet with a representative of the OSSAA prior to being reinstated to coach the school team. A school administrator will also be required to attend the meeting.

VI. VIOLATIONS OF CONSTITUTION, RULES, REGULATIONS OR OSSAA POLICIES

When a violation of OSSAA's Constitution, Rules, Regulations, or Policies has been determined to have occurred, the Executive Director is authorized to impose sanctions or remedies, which may include suspending a coach or other school personnel from coaching and/or activity program management responsibilities, or imposing limits or conditions on those coaching and/or activity management responsibilities.

VII. PUBLIC CRITICISM OF CONTEST OFFICIALS AND SCHOOL REPRESENTATIVES

Any school representative who publicly criticizes a contest official, or members of the OSSAA Staff or Board of Directors and any contest official who publicly criticizes a school representative, or members of the OSSAA Staff or Board of Directors in connection with a contest, meet, or tournament is subject to sanctions. The member school represented by an individual who publicly criticizes a contest official may also be subject to sanctions if the school fails to take appropriate action in response to the school representative's public criticism of the contest official. The sanctions could include warning or suspension.

Public criticism includes, but is not limited to, comments made to the media or during a broadcasted event, and comments made in a public forum.

VIII. CONDUCT OF STUDENTS

1. Please refer to Rule 4 in OSSAA Rules and Regulations Handbook located in the principal or athletic director's office concerning the conduct and fighting rules.
2. It is mandatory that all head coaches remind his/her team that fighting during the post-game hand shaking ceremonies or conducting themselves in an unsportsmanlike manner after the game will be severely penalized. The head coach and team will be subject to additional suspension penalties beyond the normal penalties imposed on fighting and unsportsmanlike acts that occur during the contest. Injuries have occurred because of fans climbing over walls and fences, being trampled, or partaking in dog-pile celebrations, etc. at the conclusion of a contest. Therefore, school administrators should be aware that if their student body and fans come onto the playing area after a contest, penalties may be imposed.

IX. NOISE MAKERS

For indoor activities: Boom boxes or any type of device that plays music, sounds, or voices, and noise makers of any kind such as air horns, cow bells, etc. will not be allowed to function/operate. This will also apply to pre-game/contest and post-game contest activities. This rule applies to both regular and post-season games/contests.

For outdoor activities: Noise makers are allowed at outdoor activities unless they interrupt the normal game/contest procedure of announcers, bands, cheer squads, drill teams or any other game/contest related activities. The game officials have the authority to stop the use of any noisemakers or disruptions that interrupt the normal game/contest procedures. This rule applies to both regular and post-season games or contests.

X. EMERGENCY ACTION PLAN

Any time a member school is hosting a planned activity at a school facility there must be an Emergency Action Plan in place. The plan must be shared with any visiting school. An Emergency Action Plan, or EAP, is a formal written plan, developed by the host site, that identifies potential emergency conditions at the event site and prescribes the procedures to be followed to minimize or prevent loss of life and property. A template for an EAP is on the OSSAA website under the sports medicine tab.

XI. HAZING

Hazing incidents have no place in the activity programs of our member schools. The OSSAA encourages each member school to develop procedures to inform their students that this type of behavior is not acceptable and should not be tolerated.

XII. TAUNTING

Any form of taunting which is intended or designed to anger, bait, embarrass, ridicule, or demean others is subject to penalty.

XIII. OFF SEASON TRY-OUTS

Only students in grades 8-11 attending school in the district for which the try-out is held may be permitted to participate in a try-out. Try-outs should only be conducted for the purpose of the selection of a school team and may not be used for practice time. Each day of the try-out may be up to 2 hours in length. No off-season try-out will be approved for more than three days, and all sessions of the try-out must conclude by 9 p.m. A record of all try-outs should be kept on file at the member school. The OSSAA reserves the right to request try-out forms from a member school. Exception: Cheerleading is exempt from the try-out Policy.

XIV. SUMMERTIME DEAD PERIOD

The dead period will occur during the week in July that includes the 4th of July each year. The dead period will be nine (9) days in length and begin the weekend preceding the 4th of July and the weekend following the 4th of July.

Secondary-level students enrolled or pre-enrolled at a member school may not use any member school's athletic facilities during the dead period in connection with any athletic activity governed by the OSSAA.
