

2024 OSSAA ELIGIBILITY WORKSHOPS

The OSSAA Staff will conduct face-to-face annual workshops on eligibility rules for representatives of all member schools during June and July of each year. An on-line annual eligibility workshop also will be made available through OSSAA's website starting July 15 of each year. All member schools are required to have at least one representative who is responsible for making eligibility determinations at that member school either attend a face-to-face workshop or complete the on-line workshop before the end of August each year. Each member school is required to maintain records verifying that a representative has completed one of the annual workshops each year as required.
