February 4, 2026

The Oklahoma Interscholastic Athletic Administrators Association (OIAAA) supports the Oklahoma Secondary School Activities Association (OSSAA) with our shared purpose to preserve and promote the educational values and competitive equity of interscholastic activities in Oklahoma's diverse community of schools.

We partner daily with the OSSAA, not only in carrying out its membership-approved constitution and rules, but also by promoting greater unity and fellowship among the member schools and the students and coaches we are here to serve. Additionally, the OSSAA works with the OIAAA to provide crucial professional development for the dedicated athletic administrators and coaches who represent our great schools and educate our state's most important resource, our students.

Today's landscape of education-based athletics is full of many new challenges, strong emotions, and differences of opinion. However, we believe the collaborative mindset the OSSAA has established, where Oklahoma school leaders, including the OIAAA, have a voice and a vote in decisions impacting education-based athletic programs in our secondary schools, provides the greatest opportunity for our students' and programs' success.
